DETAILED ACTION

Restriction Requirement

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1, 7-11, 13-27, 45, 46, drawn to Call diversion, classified in Class 455, subclass 417.

Group II. Claims 28-42, 44, 47, 48, drawn to Secure transaction, classified in Class 705, subclass 64.

The inventions are distinct, each from the other because of the following reasons:
2. Inventions Group I. Claims 1, 7-11, 13-27, 45, 46 and Group II. Claims 28-42, 44, 47, 48 are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In this instant case, invention Group I has separate utility such as for use in a service delivery after execution of user-associated program instance based on a location match, whereas invention Group II has separate utility such as for use in a service token provided by a particular party that qualified user to get benefit from a particular service. See M.P.E.P. § 806.05(d).
3. Because these inventions are distinct for the reason given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated proper.
4. A provisional election was not made to prosecute the invention of any of the Groups I and II. Affirmation of an election must be made by applicant in responding to this Office action.
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the

currently named inventors is no longer an inventor of at least one claim remaining in the application. **Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).**
